*Sasha had a wisdom and insight beyond her seventeen years that amazed those who knew and loved her. She was sensitive to those less fortunate than herself and one of her goals was to establish a fund for poor children in a Third World Country, mainly Brazil, where she had witnessed much poverty. She decided to be an organ donor when she was fifteen and her decision saved lives. She accepted Christ as her Savior when she was thirteen and has now returned to the Lord who gave her to us for a short time. Here, she lives on in her loved ones' hearts, and in her donor recipients.*

*We love you, Doodles!*
